Small Group Meetings

On Monday, August 31st we will begin small group meetings. Your child will meet on the same day and at the same time each week. These meetings will occur from 12:40-1:00. We will create a special Channel in Teams for your child's group. Stay tuned!

Supplies and a Quiet Work Space: Several students are not prepared to learn each day. **We ask that you keep all the text books, work books, office supplies and math manipulatives in some sort of a tote that stays right by your child during learning time.** This will save precious learning time, so as not to run around the house looking for materials. It also prevents completed work from being thrown away and/or destroyed by younger siblings. We also wanted to share again the importance of a quiet work space for your child to learn. We've had younger siblings come over to interrupt the learning, TVs and music in the back ground and more. We understand the challenges of learning at home, but we hope that you can search out the place with the few distractions to help during the learning time. Thank you.

Homework Points!!

Starting next week, students will earn points for completing their homework and returning it on time, and in the assignment tab in Teams. If you are still having trouble submitting work, please schedule a meeting with us to help walk you through the process!

4 points: all correct and extra effort

3 points: mostly correct, good effort

2 points: partially correct, some effort

1 point: mostly incorrect, little effort

Supply Pick-up

We have MORE supplies to give you to help with learning at home: personal head phones, a journal, # of the Day whiteboard among other things. **Please stop by Bohn between 11:30 and 1:30 on Friday, September 4th to pick up these important materials.** Hot spots are still available too!!! Grab one to help take the strain off your home internet, especially if you have multiple kids on Teams at the same time!
