iRead is Back!!!

Student accounts are now active in iRead! We'd love for students to start using the program again. Using the Chrome browser, simply visit <https://idp-awsprod1.education.scholastic.com/idp/> on a computer (not phone or tablet). Log in using the student ID # and the password 1234. Students pick up where they left off in the spring. If students are new to Bohn, it will prompt the student to take the Screener first. Let us know if you have any questions.

October Supply Pick up Materials

Lots of new goodies in the pick up today! Here are a couple important details for some of the materials:

1. Orange October Journal: Please do ALL writing in here. Students are to use pencil only and drawings in crayon only. Write on both sides of the pages. We will collect this work at the end of the month.
2. My Writing Words: This booklet is to help students with spelling new words in their writing. We are asking students to bring the booklet to a grown up when they need help with spelling a word. They must bring a pencil and turn to the page (book is in ABC order) the think the word they want spelled is on. The grown up will then write the word on the line. Let us know if you have questions.

Disperse the Burst STEM Kit

We are excited to begin our first STEM (science) unit!! While we will do some of the work during our online, synchronous time, the MAJORITY WILL BE DONE ASYNCHRONOUSLY! Please note, this is not optional work! We have created a green direction sheet and attached it to all of the pages needed to complete the tasks. There are links on the green page, but we will also post those in the weekly Asynchronous Blackout Bingo boards to so they are easier to access. Please let us know if you have any questions! We look forward to seeing what devices the students create at THE END of the unit!!!

Dojo Points

Students work hard each day to earn dojo points for staying on task, volunteering answers, completing asynchronous activities etc. A couple weeks ago we shared rewards for students that earn 75 dojo points. It is the student's responsibility to let us know when he/she hits the 75 point mark. At that point, she/he gets to spin the prize wheel!

We also have a wheel to spin when the class earns 1500 points. We can't wait to see what our next reward is! We're getting so close!!
