Sea Shell of the Week:
Angelyn

Mrs. Brown & Mrs. Delucchi's Shark Bites

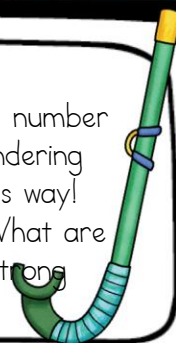

September 11, 2020

HW & Dojo Points

Students earn dojo points for completing their homework on time. Beginning next week, students will LOSE dojo points if they don't turn in their homework, on time & in Teams. Consistent completion of work, & turning it in to the right spot, builds responsibility & accountability, both of which are critical to student academic success. If you're struggling to get work in, let us know. We can help!

Unit 1 Math: Addition & Subtraction Strategies

This past month, we've taught your children a variety of strategies to solve addition and subtraction number sentences inside 20: doubles, near doubles, making 10, number line, among others. You may be wondering *why all of these crazy strategies*, especially since you most likely didn't learn to add and subtract this way! The purpose of these strategies to build number sense and awareness. How do numbers work? What are their patterns? PLEASE continue to encourage the use of these strategies. They help to build a strong foundation from which to build a greater understanding in math.

Asynchronous BINGO

Many did not turn in their BINGO last week!! This is not an optional assignment. It is **imperative** you complete these weekly tasks. While distance learning is scheduled from 8:30-11:30, that does not mean there isn't work to do in the afternoon. Students should be spending approximately another 2 hours sometime during the rest of the day doing asynchronous work. For the BINGO assignment, you only need to submit the final BINGO board with check marks/dates and a parent signature. We'd love for you to share photos completing activities in our Class Story on Dojo though!

Awesome Attendance

We'd like the THANK YOU for making morning school a priority!! While we understand technology is not always our friend in the morning, we appreciate the efforts to get our students online. Last week, we earned an attendance award! WE ARE SO PROUD!!!
